Your Warranty: SLD's products are warranted to be free from defects in material & workmanship for a period of 90 days from the date of purchase. Light bulbs/lamps are excluded from this warranty. Products which prove to be defective during this period will either be repaired or replaced, at SLD's option, provided the item is returned to us, freight prepaid, & the item has not been misused or abused. Claims for indirect or consequential damages or for products which in our opinion have been misused, will not be allowed. This is a warranty of product reliability only & not a warranty of merchantability or fitness for a particular purpose. Shipments made to customers under the terms of this warranty will be made on a freight collect basis only.

Price Quotations: Prices listed in our most current price list or on our web site supersede all other price lists. All prices are listed & quoted F.O.B. SLD's warehouse & include domestic packing but do not include transportation charges of any kind, nor do they include export or specialized packing, sales, excise or any taxes, duties or like charges. Quotations & delivery are contingent upon strikes, fire, labor disputes & other conditions beyond our control. If you are paying by credit card, your name & shipping address must match the billing information on your credit card. It is our policy to ship to the credit card billing address only. If you need to make other shipping arrangements call us at 212-245-4155 during regular business hours. All shipping charges are to be paid by consignee. All prices & invoices are quoted & charged in U.S. Dollars. We cannot be held responsible for errors or omissions in the printing or preparation of this list. Prices, models, finishes, materials, & specifications are subject to change without notice. Lamps are not included in price unless specified.

Conditions: SLD reserves the right to change, modify, improve or substitute items of comparable value. All authorized returns are subject to a 20% restocking charge. No returns after 7 days. Custom orders including fabrics, stage curtains, custom tube lighting, glass filters, custom gobos & all other non-stock & stock made-to-order items are not returnable.

Safety Warnings: Our products, as with any electrical device, must be disconnected from the power supply before service or relamping. Service should be performed by qualified personnel only. Periodic inspection & maintenance is required to keep equipment operating properly & at peak performance. Do not mount fixtures on or adjacent to combustible materials. When setting up a sound system, keep sound amplification to a minimum. Disconnect fog machines & hazers from power when not in use. When using strobe lights in a public space, post a notice indicating the use of strobes and that strobes may cause seizures in individuals with photosensitive epilepsy. When using fog machines or hazers in a public space, post a notice indicating their use, and that fog machines and hazers may cause breathing difficulties for individuals with respiratory or asthmatic conditions. Do not use products supplied by SLD Lighting in or near wet locations. All products are for indoor use only. Laser products must be projected above eye level. Please review the manufacturer's user manual online for important safety warnings and cautions.

Shipments: Orders for equipment carried in stock are promptly shipped. Customers are requested to give shipping instructions with their orders. If not given, our best judgement is used in selection of routes. Consignees must hold carrier responsible for breakage, damages, delay or shortage in transit. Merchandise is receipted for in good condition at the point of shipment & SLD cannot accept responsibility for the actions of the carrier or other conditions beyond our control. Special orders & custom orders require payment in advance. No cancellation on special orders. OPTIPAR

Projection distance up to 40'

The OptiPar features a specially designed reflector that allows for a brighter light output than conventional parcans. It uses an energy efficient 575W halogen lamp that gives a very white beam & an output similar to a 1000W lamp. There are a series of optional, interchangeable lenses that make it simple to change beam angles - go from very narrow spot to wide flood by simply changing the front lens. A color frame and a very narrow beam lens are included with each unit. A plug is not included, please order separately (see accessories).

The Source Four™ Jr. is ideal for both stage & architectural applications providing unsurpassed imaging excellence. Similar to the Source Four™, the Source Four™ Jr is more compact & accepts the highly efficient HPL lamps up to 575 watts. Its light output is similar to a conventional 1000 watt ellipsoidal at only 575 watts. Its revolutionary technology gives you a clean white beam for crisp pattern projection & a bright even field. 3 fixed beam units are available (50°, 36° & 26°) & one zoom unit (25°-50°). Each is supplied with integral framing shutters, pipe clamp & colorframe. A plug is not included, please order separately. All models are 7"W x 10"H (with Yoke) x 19"D, 10 lbs

SOURCE FOUR™ PATTERN & FRAMING PROJECTORS

Extremely popular fixtures offering the brightest light available while keeping heat generation to a minimum. The Source Four™ combines highly efficient HPL lamps up to 750W, with a patented dichroic reflector, making its beam one of the coolest on the market. Gels, patterns & shutters last longer & your space stays cooler. These units give you a clean white beam for unequalled imaging, crisp pattern projection & a bright, even field. At 575W, they compare to conventional 1000W ellipsoidals, & at 750W, there's no other fixture in its class. 9 fixed beam units are available (90°, 70°, 50°, 36°, 26°, 19°, 14°, 10° & 5°) & 2 zoom units (15°-30° & 25°-50°). All are supplied with integral framing shutters, a rotating barrel ± 25%, insulated rear handle, a pipe clamp & a colorframe. A plug is not included, order separately.
